### 3. School Access Audit Questionnaire

It is essential that you recognise the barriers to access. A checklist can help you with this process.

The checklist has three sections. In the first section, you will be asked to consider whether the environment in your school has been designed to meet the needs of all pupils, including those with ALN and/or a disability.

The second and third sections should be used to identify how your school presents their curriculum and written materials in other formats, and to give a clearer picture of the barriers to access that exist in the culture of the school. It is important to note that this list isn't exhaustive.

**Planning Group**

Present: Madison Marshall, William Owen (Representatives from School Council), Lynne Hardwidge Jones (SEN Co-ordinator), Karen Davies (Governing Body – responsible for ALN), Owain Lemin Roberts (Headteacher)

Headteacher thanked all for attending the meeting and explained the background of the 'Accessibility Policy'

LHJ shared that she had already spoken to parents, representation of staff and pupils.

Planning Group took time to consider the findings and to offer their opinions.

All agreed that as a new school most accessibility issues had already been considered.

The Planning Group were in agreement that the following matters needed further consideration as the school draws up its 'Accessibility Development Plan'.

- Front door very difficult to open
  
- More opportunities for pupils to learn about variety of disabilities as part of classroom provision
  
- High number of pupils in each class, leading to work tables very close to one another
  
- More opportunities for all pupils to incorporate drama and physical activity into classroom provision.
